SMOOTH

One piece, engineered corner solution.

Homeowners spend hundreds of dollars and hours of time on caulking and sealants in order to fix unsightly corner separation and cracking. With this unique, one-piece, engineered structure, your risk for seam separation is mitigated. Because of the engineered nature of the product it is available in specified lengths.

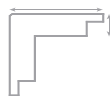

SUBSTRATE	Knotty, appearance grade SPF
WARRANTY	15-year warranty against manufacturer defect
APPLICATION	Suitable for inside and outside corners

Structurally certified, engineered SPF post.

Designed by builders and preferred by engineers as a structurally certified product, RealPost™ has become the new standard in single-family and multifamily applications. Manufactured from premium locally sourced SPF that has been finger-jointed, edge-laminated and pressed, the final product is hollow and warranted against warping, twisting and joint separation.

- Structurally certified for your load bearing single-family and multifamily applications
- 15-year warranty against manufacturing defect
- Low maintenance and great for porch posts, gazebos, pergolas or as interior decorative posts

Structural Innovation Perfected.

A hollow, engineered, SPF structural post solution. This sturdy manufactured post product will protect you against warping and seam separation, saving time and money.
